Hi Diane,

If the FFS will show >\$50M remedy, then it would need to go through the \$50M process for Administrator approval. I know the region is hoping to issue the FFS in Sept, would that be the same timeframe for the proposed plan? I'll develop the proxy card based on the anticipated issuance date, so we can help track.

Thanks,
Sun

Ok, thanks for the clarification. I'll check with Christine Poore on how best to handle, if this would go through the \$50M process.

Thanks. That is correct \$45M, however, as we are already running the numbers for this FFS, i.e. disposal numbers in today's rates, we are most likely > \$50M for a full disposal remedy.

Hi Diane,

Great job on the briefing to Larry and Dana today, I'm glad we landed on solid next steps.

I just wanted to check in with you re: the remedy cost for Woodbrook. I thought in total from the 2018 ESD, it was \$45M, so under the \$50M threshold. Has that changed? Do you think with the FFS, we are looking at possibly having a preferred alternative at or above the \$50M threshold? (And so should follow the \$50M process for Administrator approval?)

Thanks,
Sun
